It's time to go online at West Yorkshire Pension Fund

You probably read in your last pension newsletter that WYPF is moving its services online only in 2021. One of the main changes this brings is that you'll no longer get your yearly pension statement through the post. To see your statement from now on you'll need to sign into the **My Pension** service at **www.wypf.org.uk/mypension**

My pension isn't just a place to have a look at your newest pension statement. It's a hub for managing your pension account right through your working life and beyond. You'll be able to see the pension you're building up and plan for your future, with new features coming along soon that will make it even more useful.

So don't miss out on any of this. Sign up today at **www.wypf.org.uk/mypension** and you'll get an email from WYPF the minute your 2021 pension statement is available online.
